Public Health Performance Assessment – Emergency Preparedness

A. Public Health and the Department of Justice Assessment Process

In order to assess the baseline of readiness to respond to the threat of biological, chemical and radiological emergencies, CDC, in collaboration with public health partners has developed the attached **public health emergency preparedness assessment instrument**. This tool is integrated with the threat assessment tool developed by the FBI and the risk, capabilities, and needs assessment instruments developed for the US Department of Justice. These instruments together form an integrated assessment instrument for state and local jurisdictions.

The public health assessment is organized according to the ten essential services of public health which were developed in 1994 by representatives of ASTHO, NACCHO, the Institute of Medicine, the Association of Schools of Public Health, the Public Health Foundation, the National Association of State Alcohol and Drug Abuse Directors, National Association of State Mental Health Program Directors, and the U.S. Public Health Service (http://web.health.gov/phfunctions/public.htm).

The terms local public health system (LPHS) and local public health agency (LPHA) are used frequently in the assessment.

The local public health system (LPHS) is the collection of public and private organizations contributing to public health at the local level. In some cases, organizations headquartered outside the local jurisdiction may be included in the LPHS if these organizations contribute to public health at the local level. The contribution need not be permanent or ongoing, so long as it contributes to public health at the local level. Components of the LPHS may include:

- Governmental entities--including local public health agency (LPHA) or department,
 board of health, local or regional branch of state health department bearing responsibility for the delivery of any public health service to the jurisdiction
- Hospitals serving the jurisdiction
- Managed care organizations serving the jurisdiction
- Clinics and physicians serving the jurisdiction
- Social service providers
- Civic organizations providing public health services to the jurisdiction
- Professional organizations providing public health services to the jurisdiction
- Local businesses providing public health services to the jurisdiction
- Neighborhood organizations providing public health services to the jurisdiction
- Faith institutions providing public health services to the jurisdiction
- Transportation providers providing public health services to the jurisdiction
- Educational institutions providing public health services to the jurisdiction
- Public safety and emergency response agencies and organizations
- Environmental or environmental-health agencies
- Non-profit organizations/advocacy groups providing public health services to the jurisdiction

The local public health agency (LPHA) may vary in different jurisdictions, but usually includes the local health department, local board of health, and/or local governmental entity designed to provide public health services to the jurisdiction.

In many communities, the LPHA is one of many participants—although a major player—in the LPHS. The State may provide services, which comprise a part of the local public health system. These concepts should be discussed by the team that will complete the assessment instrument.

B. Completing the Assessment

- 1. <u>Defining the jurisdiction</u> The jurisdiction under assessment may be a city, a county, multiple counties, a metropolitan area or a region. All are acceptable for assessment purposes. To facilitate analysis, please provide a list of all geographic areas included in the surveyed jurisdiction.
- 2. <u>Identifying the team of respondents</u> A single person or organization will not be able to adequately complete the assessment. During pilot testing, the instrument was best completed when the head of the local public health agency assembled a team from the LPHS who represented the range of services required to respond to public health emergencies. As guidance, we highly recommend that representatives from: the local public health agencies, hospitals, emergency medical services; fire department, law enforcement, media and others involved in local emergency planning, be involved in the completion of the assessment. Page three of the assessment instrument contains a sign-up sheet for those persons participating in the assessment.
- 3. <u>Answering the questions</u> We have tried to make all questions answerable with a definite YES or NO. However, there will be certain questions that respondents may be uncertain how to answer. Respondents should answer YES to any question that is partially met.

C. Overview of Capabilities of Local Public Health Jurisdiction

The set of questions on page 35 titled 'Overview of Capabilities of Local Public Health Jurisdiction' are a set of consensus indicators frequently used for measuring community-level public health capacity. Because these indicators have been used in prior assessments of public health performance, completing this survey in addition to the public health emergency preparedness assessment instrument will contribute to the science-base of performance measurement in public health practice.

Performance Assessment - Public Health Emergency Preparedness

This should be completed by staff of the local public health agency or agencies being assessed

	Overview of Capabilities of Local Public Health Jurisdiction		
1.	For the jurisdiction served by your local health department, is there a community needs assessment process that systematically describes the prevailing health status in the community?	Yes 🗆	No 🗆
2.	In the past three years in your jurisdiction, has the local public health agency surveyed the population for behavioral risk factors?	Yes 🗆	No 🗆
3.	For the jurisdiction served by your local health agency, are timely investigations of adverse health events, including communicable disease outbreaks and environmental health hazards, conducted on an ongoing basis?	Yes 🗆	No 🗆
4.	Are the necessary laboratory services available to the local public health agency to support investigations of adverse health events and that meet routine diagnostic and surveillance needs?	Yes 🗆	No 🗖
5.	For the jurisdiction served by your local public health agency, has an analysis been completed of the determinants and contributing factors of priority health needs, adequacy of existing health resources, and the population groups most impacted?	Yes 🗖	No 🗆
6.	In the past three years in your jurisdiction, has the local public health agency conducted an analysis of age-specific participation in preventive and screening services?	Yes 🗆	No 🗆
7.	For the jurisdiction served by your local public health agency, is there a network of support and communication relationships that includes health-related organizations, the media, and the general public?	Yes 🗆	No 🗆
8.	In the past year in your jurisdiction, has there been a formal attempt by the local public health agency at informing elected officials about the potential public health impact of decisions under their consideration?	Yes 🗆	No 🗆
9.	For the jurisdiction served by your local public health agency, has there been a prioritization of the community health needs that have been identified from a community needs assessment?	Yes 🗆	No 🗆
10.	In the past three years in your jurisdiction, has the local public health agency implemented community health initiatives consistent with established priorities?	Yes 🗆	No 🗆
11.	For the jurisdiction served by your local public health agency, has a community health action plan been developed with community participation to address community health needs?	Yes 🗆	No 🗆
12.	During the past three years in your jurisdiction, has the local public health agency developed plans to allocate resources in a manner consistent with community health action plans?	Yes 🗆	No 🗆
13.	For the jurisdiction served by your local public health agency, have resources been deployed as necessary to address priority health needs identified in the community health needs assessment?	Yes 🗆	No 🗆
14.	In the past three years in your jurisdiction, has the local public health agency conducted an organizational self-assessment?	Yes 🗆	No 🗆

15.	For the jurisdiction served by your local public health agency, are age- specific priority health needs effectively addressed through the provision of, or linkage to appropriate services?	Yes 🗖	No 🗖
16.	Within the past year in your jurisdiction, has the local public health agency provided reports to the media on a regular basis?	Yes 🗖	No 🗖
17.	For the jurisdiction served by your local public health agency, have there been regular evaluations of the effects of public health services on community health status?	Yes 🗖	No 🗖
18.	In the past three years in your jurisdiction, has the local public health agency used professionally recognized processes and outcome measures to monitor programs and to redirect resources as appropriate?	Yes 🗖	No 🗖
19.	In your jurisdiction, is the public regularly provided with information about current health status, health care needs, positive health behaviors, and health care policy issues?	Yes 🗖	No 🗖
20.	In the past three years in your jurisdiction, has there been an instance in which the local public health agency has failed to implement a mandated program or service?	Yes 🗆	No 🗖

Essential Se	ervice #2: Diagnose and investigate health problems and health ha	zards in tl	he commu	nity			
2.1	Indicator: Information System Capacity						
	Some questions Section 2.1 apply to the Emergency Response Coordinator (ERC) for your LPHA. This is the person who would lead the local health department's effort in the event of a bioterrorism incident (e.g. health officer, LHD Director, environmental health director, etc.). The actual title of this person will vary from locality to locality.						
2.1.1	Does the Emergency Response Coordinator (ERC) have a computer at work (e.g. primary or exclusive use of computer)? If yes,	Yes 🗆	No 🗆	DK□			
2.1.1.1	Does the ERC have a CD-ROM reader?	Yes 🗆	No 🗆	DK□			
2.1.1.2	Does the ERC have internet e-mail? If yes,	Yes 🗆	No □	DK 🗆			
2.1.1.2.1	Does the ERC (or someone they authorize) check his/her e-mail at least once each workday?	Yes 🗖	No 🗆	DK□			
2.1.1.2.2	Has the internet email system for this jurisdiction failed for more than 5 consecutive working hours during the last month (excluding scheduled downtime)? If yes,	Yes 🗆	No 🗆	DK□			
2.1.1.2.2.1	Was the Internet e-mail system repaired within one (1) working day the last time it failed?	Yes 🗆	No 🗖	DK□			
2.1.1.3	Does the ERC have an internet connection of at least 56 kbps speed to his/her desktop?	Yes 🗆	No 🗆	DK□			
2.1.1.4	Does the ERC have CONTINUOUS Internet access at work (e.g. "always on", not dial-up)?	Yes 🗆	No 🗖	DK□			
2.1.1.5	Has the Internet connection for this jurisdiction failed for more than 5 consecutive hours during the last month (excluding scheduled downtime)? If yes,	Yes 🗖	No 🗆	DK□			
2.1.1.5.1	Was the Internet connection for this jurisdiction repaired within one (1) working day the time it last failed?	Yes 🗆	No 🗆	DK□			
2.1.1.6	Can the ERC browse the World Wide Web? If yes,	Yes 🗆	No 🗆	DK□			
2.1.1.6.1	Is this browser Netscape Communicator v4.07 or newer or Microsoft Internet Explorer v4.04 or newer?	Yes 🗆	No 🗆	DK□			
2.1.2	Can your local health jurisdiction receive urgent health alerts from the state department of health within one (1) working day?	Yes 🗆	No 🗆	DK□			
2.1.2.1	Has the state used or tested the health alert system within the past three months?	Yes 🗆	No 🗆	DK□			
2.1.2.2	By what technology (or technologies) do you receive health alerts from your state health department?						
2.1.2.2.1	Telephone (individual call)	Yes 🗆	No 🗆	DK 🗆			
2.1.2.2.2	Auto-dial (computer generated telephone call)	Yes 🗆	No 🗆	DK□			
2.1.2.2.3	E-mail	Yes 🗆	No 🗆	DK□			
2.1.2.2.4	None	Yes 🗆	No 🗖	DK□			
2.1.2.2.5	Other (please specify)						

2.1.3	Does the local jurisdiction have a system for broadcasting health	_ 1		
2.1.3	alerts to targeted community groups? If yes,	Yes 🗆	No 🗖	$DK \square$
2.1.3.1	What technology (or technologies) does the local health			
2.1.3.1	jurisdiction currently use to broadcast health alerts?			
2.1.3.1.1	Telephone (Individual call)	Yes 🗆	No 🗆	DK 🗆
2.1.3.1.2	Auto-dial (computer generated telephone call)	Yes 🗆	No 🖵	DK□
2.1.3.1.3	Regular Fax	Yes 🗖	No 🗖	DK 🗆
2.1.3.1.4	Broadcast Fax	Yes 🖵	No 🗖	DK 🗆
2.1.3.1.5	E-mail	Yes 🗖	No 🗖	DK 🗆
2.1.3.1.6	None	Yes 🗖	No 🗖	DK 🗆
2.1.3.1.7	Other			
2.1.3.2	Can the system be used 24 hrs. a day, 7 days a week, if	Vac 🗖	No 🗆	DK 🗖
	necessary?	Yes 🗆	NO 🗀	באע
2.1.3.3	Has someone tested or used the system to send health alerts	Yes 🗆	No 🗆	DK□
	to members of the community within the last 3 months?	168 🗀	110	
2.1.3.4	Is the system adequately maintained (at least one person			
	assigned to maintain and update at least quarterly the list of	Yes 🗖	No 🗆	$DK \square$
	community health alert recipients)?			
2.1.4	Does the LPHA have written computer security policies?	Yes 🗆	No 🗖	DK□
	If yes, do the policies address the following:			
2.1.4.1	Intruder detection	Yes 🖵	No 🗖	DK 🖵
2. t.4.2	Virus scanning	Yes 🖵	No 🖵	DK 🗆
2.1.4.3	Digital certificate or other means for authentication	Yes 🖵	No 🗖	DK 🗆
2.1.4.4	Firewall(s) to the Internet	Yes□	No 🖵	DK 🗖
2.1.5	Does the LPHA have systems for safeguarding against data loss? If yes, do they include:	Yes 🗆	No 🗆	DK□
2.1.5.1	Backup electrical power	Yes 🗖	No 🗆	DK□
2.1.5.2	On-site data backup arrangements	Yes 🗆	No 🗖	DK□
2.1.5.3	Off-site data backup arrangements	Yes 🗆	No 🖵	DK 🗆
2.1.5.4	Power surge protection systems in place	Yes 🗆	No 🗆	DK□
2.2	Indicator: Epidemiologic capacity to assess, investigate. and anal	yze a biolo	gical, che	mical, or
	radiological threat or emergency			
2.2.1	Does the LPHS have access to Masters or Doctoral level	Yes □	No □	DK□
	epidemiologists for on-site consultation? If yes:	103 🗖	140 🛥	DK
2.2.1.1	Do the epidemiologists have access to portable computers	Yes □	No □	DK□
	with modem access during their fieldwork?	103 🗀	110 🗖	DR
2.2.1.2	Can data be entered into a centralized database from the field?	Yes 🗆	No 🗆	DK 🗖
2.2.2	Does the LPHA transmit reportable disease information	Yes □	No □	DK□
	electronically to the state health department?	100-	1,0

2.3.2.4	Labeling	$Yes \square$	No 🗆	DK□
2.3.2.5	Chain of custody	Yes \Box	No 🗆	DK 🗆
2.3.2.6	Referral to State Public Health Laboratory	Yes 🗆	No 🗆	DK□
2.3.2.7	Referral to a Federal Laboratory	Yes 🗆	No 🗖	DK□
2.3.3	Do you have at least one microbiology laboratory available to your			
	jurisdiction that can rule out agents of possible terrorist acts?	V D	M - □	
	If yes, is the laboratory able to rule-out by culture	Yes 🗖	No 🗖	DK 🗖
	methodology:			
2.3.3.1	Bacillus anthracis - agent of anthrax	Yes 🗆	No 🗆	DK□
2.3.3.2	Brucella sp agent of brucellosis	Yes 🗆	No 🗆	DK 🗆
2.3.3.3	Francicella tularensis - agent of tularemia	Yes \Box	No 🗆	DK□
2.3.3.4	Yersinia pestis - agent of plague	Yes 🗆	No 🗆	DK□
2.3.4	Is there at least one microbiology laboratory available to your			
	jurisdiction that can confirm identification of agents of possible	Yes 🗆	No 🗖	DK 🗖
	terrorist acts?	r es 🗀	No 🗀	
	If yes, is the laboratory able to confirm the following:			
2.3.4.1	Bacillus anthracis - agent of anthrax	Yes 🗆	No 🗖	DK□
2.3.4.2	Brucella sp agent of brucellosis	Yes 🗆	No 🗆	DK 🗖
2.3.4.3	Francicella tularensis - agent of tularemia	Yes 🗆	No 🗆	DK□
2.3.4.4	Yersinia pestis- agent of plague	Yes 🗖	No 🗆	DK□
2.3.5	Is there at least one microbiology laboratory available to your			
	jurisdiction that can use molecular diagnostic methodologies			
	(i.e. PCR, or other DNA-based methodologies) to make a rapid	Yes 🗆	No 🗆	DK□
	and accurate diagnosis of agents of possible terrorist acts?			
	If yes, is the laboratory able to diagnose the following:			
2.3.5.1	Bacillus anthracis - agent of anthrax	Yes 🗆	No 🗆	DK□
2.3.5.2	Brucella sp agent of brucellosis	Yes 🗆	No 🗆	DK 🖵
2.3.5.3	Francicella tularensis - agent of tularemia	Yes 🗆	No 🗆	DK 🗆
2.3.5.4	Yersinia pestis - agent of plague	Yes 🗆	No 🗖	DK 🗆
2.3.6	Are guidelines in place to indicate when laboratory results require			
	attention of LPHS medical, epidemiology, or laboratory personnel	Yes 🗖	No □	DK□
	(i.e., for human anthrax, brucellosis, tularemia or plague)?	103 🛥	110 🛥	

2.3.7	Does the LPHS receive electronic laboratory reports from diagnostic service providers? If yes, are reports received from:	Yes 🗆	No 🗆	DK□
2.3.7.1	Private laboratories	Yes 🗆	No 🗆	DK 🗆
2.3.7.2	Commercial laboratories	Yes 🗆	No 🗖	DK□
2.3.7.3	Hospitals	Yes 🗆	No□	DK 🗖
2.3.7.4	Veterinary diagnostic laboratories	Yes 🗆	No 🗖	DK 🗖

Essential Service #3: Inform, educate, and empower people about health issues					
3.1	Indicator: Public Information				
3.1.1	Have protocols been established for releasing information to the community on potential hazards resulting from a biological, chemical or radiological release? If yes:	Yes 🗖	No 🗖	DK□	
3.1.1.1	Does this protocol have provisions for informing the public of population prevention measures? If yes do these measures include:	Yes 🗆	No 🗖	DK 🗆	
3.1.1.1.1	Hazards to expect	Yes 🗆	No 🗆	DK□	
3.1.1.1.2	Precautions to take	Yes 🗆	No 🗆	DK 🗖	
3.1.1.1.3	Requirements for evacuation or shelter-in-place	Yes□	No 🗆	DK□	
3.1.1.2	Has the protocol for the release of public information been discussed in advance with the press/media?	Yes 🗆	No 🗆	DK□	
3.1.1.3	In the event of a possible terrorist incident, does the LPHS have a designated public information officer?	Yes 🗆	No 🗆	DK 🗆	
3.2	Indicator: Communication Systems for Responders and Agencies				
3.2.1.	Can the LPHA disseminate information to the LPHS on a threat or event within two hours? If yes, can information be disseminated to:	Yes 🗆	No 🗖	DK 🗆	
3.2.1.1	Ambulatory care facilities	Yes 🗆	No 🗖	DK□	
3.2.1.2	First responders	Yes 🗆	No 🖵	DK□	
3.2.1.3	Health care providers	Yes 🗆	No 🗆	DK 🗖	
3.2.1.4	Hospitals	Yes 🗆	No 🗆	$DK \square$	
3.2.1.5	Laboratories	Yes 🗆	No 🗆	DK□	
3.2.1.6	Pharmacies	Yes 🗆	No □	DK 🗖	
3.2.1.7	Community decision-makers, (i.e. Mayor or county health officials)	Yes 🗆	No 🗆	DK□	
3.2.1.8	Veterinarians	Yes 🗆	No 🗖	$DK \square$	
3.2.1.9	Others (specify)				
3.2.2	Does a protocol exist for communicating with the local Emergency Operations Center (EOC)?	Yes 🗆	No 🗆	DK□	
3.2.3	Have radio systems been established for communication among organizations (including the LPHS)? If yes:	Yes 🗆	No 🗆	DK□	
3.2.3.1	Have radio frequencies been established?	Yes 🗆	No 🗆	DK□	
3.2.3.2	Is back-up power in place to operate these systems?	Yes 🗆	No 🗆	DK□	

3.2.3.3	Is staff trained in the use of these systems?	Yes 🗆	No 🗆	DK□
3.2.4	Is 24-hour contact information for all critical local/state public health, medical, law-enforcement, and emergency management personnel updated at least monthly by the LPHA?	Yes 🗖	No 🗆	DK□
3.2.5	Does the LPHS have medical management protocols to disseminate to health care providers who are caring for patients with illnesses due to biological, chemical, or radiological agents?	Yes 🗆	No 🗖	DK□
3.3	Indicator: Communication Systems and Equipment			
3.3.1	Has a communication link with the Emergency Alert System been established?	Yes 🗆	No 🗆	DK□
3.3.2	Has a protocol for notification of the LPHS been developed in the 911 activation system?	Yes 🗆	No 🗆	DK□
3.3.3	Has the LPHS arranged with an emergency telecommunications service to receive calls when phone circuits are overloaded in an emergency or disaster?	Yes 🗆	No 🗖	DK□
3.3.4	Have back-up systems/methods of communications been identified?	Yes 🗆	No 🗆	DK□
3.3.5	Are emergency communications networks/equipment tested at least quarterly?	Yes 🗆	No 🗆	DK□

4.1	Indicator: Mobilize Community Partnerships for Emergency Preparedness and Response				
4.1.1	Do entities within the LPHS participate in a task force or coalition of community partners that addresses emergency preparedness and response issues? If yes:	Yes 🗆	No 🗆	DK□	
4.1.1.1	Does the LPHA have a designated representative to this task force?	Yes 🗆	No 🗆	DK□	
4.1.2	Has an organization(s) been given the command and control responsibility for emergency preparedness, response, and recovery efforts in your jurisdiction?	Yes 🗆	No 🗆	DK□	
4.1.3	Have facilities within the jurisdiction been identified that are suitable for command centers (Emergency Operations Center)?	Yes 🗆	No 🗖	DK□	
4.1.4	Have individual organizations' responsibilities been determined for emergency management? If yes, do those organizations include:	Yes 🗆	No 🗖	DK□	
4.1.4.1	LPHA	Yes□	No 🗆	DK□	
4.1.4.2	City/County/State Government (other than the LPHA)	Yes 🗆	No 🗆	DK□	
4.1.4.3	Education system: public education	Yes 🗆	No 🗆	DK□	
4.1.4.4	Emergency Management Agency	Yes 🗆	No 🖵	DK□	
4.1.4.5	Environmental agencies with responsibilities for fire, health, water, air quality, and consumer safety	Yes 🗆	No 🗖	DK 🗖	

4.1.4.6	Health organizations other than the LPHA (including urgent care centers, private physicians offices, nursing homes, custodial care facilities, home health care provider agencies, hospitals, poison centers, pharmacies, mental health and occupational health)	Yes 🗆	No 🗖	DK□
4.1.4.7	Local Emergency Planning Committee	Yes 🗆	No 🖵	DK□
4.1.4.8	National Guard	Yes 🗆	No 🗖	DK 🗖
4.1.4.9	Private sector: trade and business organizations, industry and labor	Yes 🗆	No 🗆	DK□
4.1.4.10	Public information office for local jurisdiction	Yes \Box	No 🗖	DK 🗖
4.1.4.11	Public safety: fire, police	Yes 🗆	No 🗖	DK 🗖
4.1.4.12	Public Works/Sanitation	Yes 🗆	No 🗖	DK□
4.1.4.13	Transportation systems	Yes 🗖	No 🗖	DK 🗖
4.1.4.14	Volunteer Organizations (e.g. Red Cross)	Yes 🗆	No 🗖	DK 🗖
4.1.4.15	Veterinarians	Yes 🗆	No 🗖	DK□
4.1.5	Does the LPHS have procedures for both organizing and coordinating volunteers during a disaster? If yes,	Yes 🗆	No 🗆	DK□
4.1.5.1	Is insurance coverage extended to volunteers?	Yes 🗆	No 🗆	DK□
4.1.6	Have local organizations been identified (e.g. chemical manufacturers, radiological sites, commercial cleanup contractors) that may be of technical assistance once an emergency public health response is required?	Yes 🗖	No 🗖	DK□

Essential S	ervice #5: Develop policies and plans that support individual ar	nd commur	nity health	efforts
5.1	Indicator: Policies and plans related to emergency preparedness	s		
5.1.1	Does your jurisdiction have an emergency preparedness and response plan? If yes, does the plan include the following:	Yes 🗖	No 🗆	DK 🗆
5.1.1.1	Organizational responsibilities and relationships among local, district, State, and Federal response agencies	Yes 🗆	No 🗖	DK□
5.1.1.2	Identification of community organizations that have a role in responding to biological, chemical, or radiological exposure	Yes 🗆	No 🗆	DK□
5.1.1.3	Alternative treatment facilities to accommodate increased patient loads in the event of a mass casualty incident	Yes 🗆	No 🗆	DK□
5.1.1.4	Roster of local medical facilities capable of handling laboratory specimens	Yes 🗆	No 🗆	DK 🗆
5.1.1.5	Roster of local medical facilities capable of handling victims of exposure	Yes 🗆	No 🗆	DK 🗆
5.1.1.6	Roster of local veterinary facilities capable of handling laboratory specimens	Yes 🗆	No 🗆	DK□
5.1.1.7	Roster of local veterinary facilities capable of handling affected animals	Yes 🗆	No 🗆	DK□
5.1.1.8	Coordination with the local poison control center	Yes 🗆	No 🖵	DK□
5.1.1.9	Procedures for updating the emergency preparedness and response plan	Yes 🗆	No 🗆	DK□
5.1.1.9.1	If yes, have plans been reviewed within the past 12 months	Yes 🗆	No 🗆	DK 🗆
5.1.1.10	Guidelines for addressing environmental decontamination issues	Yes 🖵	No 🗖	DK 🗆
5.1.1.11	Guidelines for worker safety for those dealing with humans and animals exposed to biological, chemical, or radiological agents (e.g., the use of personal protective equipment and documentation of adequate antimicrobial chemoprophylaxis)	Yes 🗖	No 🗖	DK 🗖
5.1.1.12	Guidelines for reviewing activities conducted during a response or exercise to correct deficiencies	Yes 🗖	No 🗆	DK□
5.1.1.13	Protocol for convening police, fire, EMS, local hospitals, public health officials, members of the local emergency planning committee, Emergency Operations Centers, and other relevant parties on a periodic basis to review the content of the plan	Yes 🗖	No 🗖	DK□
5.1.1.14	Protocol for coordinating public health responsibilities with law enforcement responsibilities	Yes 🗖	No 🗆	DK□
5.1.1.15	Protocol for mutual aid agreements	Yes 🗆	No 🗖	DK□
5.1.1.16	Protocol for implementing an emergency epidemiological investigation for human and animal exposures	Yes 🗆	No 🗆	DK. 🗖
5.1.1.17	Protocol for implementing evacuation and mass casualty transportation	Yes 🗆	No 🗆	DK□

5.1.1.18	Protocol for initiating the public health response when a device is found that may contain a biological, chemical, or radiological agent	Yes 🗖	No 🗆	DK 🗆
5.1.1.19	Protocol for critical incident stress counseling for victims or response personnel, including public health and medical professionals	Yes 🗆	No 🗆	DK 🗆
5.1.1.20	Protocol for protecting care-providers and victims from secondary exposures	Yes 🗖	No 🗆	DK 🗆
5.1.1.21	Protocol for decontamination of patients upon their arrival at the treatment facility	Yes 🗆	No 🗖	DK□
5.1.1.22	Protocol for ensuring that contamination of treatment facilities does not occur when patients are evaluated or treated	Yes 🗆	No 🗆	DK□
5.1.1.23	Protocol for decontaminating mass casualties (pre-hospital)	Yes 🗆	No 🗆	DK□
5.1.1.24	Protocol for instituting mass isolation within a health facility	Yes 🗆	No 🗆	DK 🗆
5.1.1.25	Protocol for transferring patients outside of the LPHS	Yes 🗆	No 🗆	DK□
5.1.1.26	Protocol for incorporating state and federal assets into the local response efforts (ie. National Disaster Medical System (NDMS), Disaster Medical Assistance teams (DMAT), etc.)	Yes 🗆	No 🗆	DK 🗆
5.1.1.27	Protocol for instituting mass vaccinations or medication distribution. If yes:	Yes 🗆	No 🗆	DK□
5.1.1.27.1	Does it address distribution of vaccines and medications to the first responders?	Yes 🗆	No 🗆	DK□
5.1.1.27.2	Does it address distribution of vaccines and medications to the medical/health care providers?	Yes 🗆	No 🗆	DK□
5.1.1.28	Protocol for responding to mass mortuary needs	Yes 🗆	No 🗆	DK□
5.1.2	If the LPHS has an emergency response plan, has it been implemented or exercised within the past 12 months?	Yes□	No 🗆	DK 🗆
5.1.2.1	If yes, was the local emergency management agency (or Local Emergency Planning Committee) involved in the process?	Yes 🗆	No 🗆	DK□
5.1.3	Is the LPHS emergency response plan integrated with the state emergency response plan?	Yes 🗆	No 🗆	DK□
5.1.4	Is the local public health agency integrated into a community-wide emergency response plan?	Yes 🗆	No 🗆	DK□

Essential Service #6: Enforce laws and regulations that protect health and ensure safety				
6.1	Indicator: Review and evaluate laws and regulations including	g statutory	basis for	action
6.1.1	Does the LPHS have a current compilation of Federal, State, and local laws and regulations regarding emergency preparedness and response in the event of biological, chemical agents, or radiological incidents? If yes, has there been a review of regulations addressing:	Yes 🖵	No 🗖	DK 🗖
6.1.1.1	"State of emergency" declarations	Yes 🗆	No 🗆	DK□
6.1.1.2	Clean air	Yes 🗆	No □	DK 🗆
6.1.1.3	Exposure-related disease	Yes 🗆	No 🗆	DK 🗖
6.1.1.4	Food handling	Yes 🗆	No 🗆	DK 🗖
6.1.1.5	Injury prevention	Yes 🗆	No 🗆	DK 🗆
6.1.1.6	Mortuary services	Yes 🗖	No 🗖	DK□
6.1.1.7	Toxic waste and chemical treatment	Yes 🗆	No 🗆	DK□
6.1.1.8	Water quality	Yes 🗆	No 🗆	DK 🗖
6.1.1.9	Worker safety	Yes 🗆	No 🗖	DK 🗆
6.2	Indicator: Involvement in improvement and enforcement of la	ws and reg	ulations	
6.2.1	Does the LPHS have the legal authority to enforce public health laws and regulations? If yes, does it include authority to:	Yes 🗖	No 🗆	DK□
6.2.1.1	Close facilities in a health emergency	Yes 🗆	No 🗆	DK 🗆
6.2.1.2	Declare appropriate procedures for the management of fatalities and safe handling of dead bodies (both human and animal)	Yes 🗖	No 🗆	DK 🗖
6.2.1.3	Detain persons exposed to a biological agent	Yes 🗆	No 🖵	DK 🖵
6.2.1.4	Establish quarantine in the event of a suspected biological, chemical, or radiological release (Federal, State, county and local laws, ordinances and policies),	Yes 🗆	No 🗖	DK□
6.2.1.5	Order evacuation of the community	Yes 🗆	No 🖵	DK 🗆
6.2.1.6	Require exposed persons to accept mandatory vaccinations and/or drug therapy	Yes 🗆	No 🗆	DK□
6.2.1.7	Require mandatory medical examination of exposed persons	Yes 🗆	No 🗖	DK 🗖
6.2.1.8	Require mandatory tracking and follow-up of exposed persons	Yes 🗆	No 🗆	DK□
6.2.1.9	Require the collection of specimens and the performance, of tests on exposed persons and animals	Yes 🗖	No 🗆	DK□
6.2.1.10	Require the decontamination of exposed property	Yes 🗆	No 🗆	DK 🖵
6.2.1.11	Require the reporting of new diseases and illness clusters	Yes 🗆	No 🗆	DK 🗆
6.2.1.12	Seize and destroy contaminated property	Yes 🗆	No 🗆	DK 🗆
6.2.2	Does the LPHS identify local public health issues (related to emergency preparedness and response) that are not adequately addressed through existing laws and regulations?	Yes 🗖	No 🖵	DK□

6.2.3	Does the LPHS participate in the modification of existing laws and regulations designed to protect health and ensure safety in case of a public health emergency or hazardous biological, chemical, or radiological event?	Yes 🗆	No 🗆	DK□
6.2.4	Does the LPHS participate in the formulation of new laws and regulations designed to protect health and ensure safety in case of a public health emergency or hazardous biological, chemical, or radiological event? If so, does the LPHS:	Yes □	No 🗖	DK□
6.2.4.1	Draft proposed legislation or regulations?	Yes 🗆	No□	DK□
6.2.4.2	Get involved in public hearings?	Yes□	No 🗆	DK□
6.2.4.3	Communicate with legislators and regulatory officials?	Yes 🗆	No 🗆	DK 🗖

Essential S	Essential Service #7: Link people to needed personal health services and ensure the provision of healthcare when otherwise unavailable				
7.1	Indicator: Assuring community access to critical health service	ces during	a threat o	r event	
7.1.1	Has the LPHS identified special populations who may encounter barriers to health services during an emergency due to a biological, chemical, or radiological agent? If yes, have needs of the following groups been identified:	Yes 🗆	No 🗖	DK□	
7.1.1.1	Children	Yes 🗆	No 🗖	DK□	
7.1.1.2	Elderly persons	Yes 🗆	No 🗆	DK 🗆	
7.1.1.3	Homeless population	Yes 🗆	No□	DK□	
7.1.1.4	Remote populations	Yes 🗆	No□	DK 🗆	
7.1.1.5	Those who are chronically ill and require access to critical services, e.g. kidney dialysis and pharmacy services	Yes 🗆	No 🗖	DK□	
7.1.1.6	Those who encounter barriers due to culture or language	Yes 🗆	No 🗆	DK 🗖	
7.1.1.7	Underinsured and uninsured	Yes 🗖	No 🗖	DK 🗆	
7.1.1.8	Physically and mentally disabled, including homebound	Yes□	No 🗖	DK 🗆	
7.1.1.9	Others (specify)				
7.1.2	Have resources been designated to reduce barriers and meet the health needs for all these special populations within your jurisdiction in the event of a threat?	Yes 🗆	No 🗆	DK□	
7.1.3	Does the LPHS have access to logistical assets to transport mass casualties within and outside of the local jurisdiction if local hospitals become filled?	Yes 🗆	No 🗆	DK 🗖	
7.2	Indicator: Assuring eff five medical management during an e	mergency			
7.2.1	Has the LPHS assessed the ability to increase capacity in the case of a five-fold increase in patient admissions to the health care sector?	Yes 🗆	No 🗆	DK 🗖	
7.2.2	Have you assessed the ability to increase capacity five-fold for the following services?				
7.2.2.1	Adult medicine beds	Yes 🗆	No 🖵	DK□	

7.2.2.2	D 0.1 1			DIZ 🗖
7.2.2.2	Burn unit beds	Yes 🗆	No 🗆	DK 🗆
7.2.2.3	Intensive Care Units (ICU) beds	Yes 🗆	No 🗖	DK 🗆
7.2.2.4	Medical treatment vehicles	Yes 🗆	No 🗖	DK 🔲
7.2.2.5	Mortuary Space	Yes 🗆	No 🗖	DK 🔲
7.2.2.6	Multiple trauma beds	Yes 🗆	No 🗆	DK 🗆
7.2.2.7	Pediatric beds	Yes 🖵	No 🗖	DK 🔲
7.2.2.8	Respiratory isolation units	Yes 🖵	No 🗖	DK 🔲
7.2.2.9	Respiratory ventilators	Yes□	No 🗖	DK 🖵
7.2.3	Has the LPHS assessed pharmaceutical inventories at area pharmacies, pharmaceutical supply vendors or treatment facilities (including hospitals)? If yes, have the inventories been assessed for the following:	Yes 🗖	No 🗖	DK□
7.2.3.1	Bacterial agents: e.g. Ciprofloxacin, Doxycycline, Penicillin, Chloramphenicol, and Azithromycin	Yes 🗆	No 🗖	DK 🗆
7.2.3.2	Botulinum toxin: Mechanical respiratory ventilators and associated supplies	Yes 🗆	No 🗆	DK□
7.2.3.3	Burn care / Vesicants: Sterile bandages, intravenous fluids, and broad spectrum antibiotics	Yes 🗖	No 🖵	DK 🗖
7.2.3.4	Cyanides: Cyanide antidote kits containing amyl nitrite, sodium nitrite, and sodium thiosulfate	Yes 🗆	No 🗖	DK 🗆
7.2.3.5	Lewisite: British Anti- Lewisite	Yes 🗆	No 🖵	DK 🗖
7.2.3.6	Nerve agents: e.g. Atropine, Pralidoxime chloride, and Diazepam (or lorazepam)	Yes 🗆	No 🗆	DK□
7.2.3.7	Pulmonary agents: Oxygen ventilators, and respiratory care supplies	Yes 🗆	No 🗆	DK 🗆
7.2.3.8	Radiological exposure: Potassium iodide	Yes 🗆	No 🖵	DK 🗆
7.2.3.9	All agents: Resuscitation equipment and supplies; vasopressors	Yes 🗆	No 🗆	DK□
7.2.4	Does the LPHS have access to dosage requirements for antidotes and therapies for children?	Yes 🗆	No 🗆	DK□
7.2.5	Is the necessary drug administering equipment available for the on-hand quantities of antidotes and therapies?	Yes□	No 🗆	DK□
7.2.6	Has the LPHS established protocols for requesting State or Federal (civilian or military) pharmaceutical stock-piles?	Yes 🗖	No 🗆	DK□
7.2.7	Do you now have, or will you have within the next 12 months, a person in charge that will be officially designated to accept deliveries from the National Pharmaceutical Stockpile if there is a bioterrorist event?	Yes 🗖	No 🗆	DK□
7.2.8	Does your LPHS have mutual aid agreements with other localities (in or outside your state) to share pharmaceuticals and medical devices?	Yes 🗖	No 🗆	DK□
7.2.9	Does the LPHS have procedures in place for people needing medical care? If yes:	Yes□	No 🗖	DK□
7.2.9.1	Does the LPHS have a procedure to triage patients to appropriate treatment facilities?	Yes 🗆	No 🗆	DK□
7.2.9.2	Do procedures address the need for confidentiality?	Yes 🗆	No 🗆	DK□

7.2.10	Do the majority of the hospitals in your jurisdiction have the			
	following respiratory protective equipment available?			
7.2.10.1	Self-contained breathing apparatus (with tank and full mask)	Yes 🗖	No 🗖	DK 🖵
7.2.10.2	Supplied air respirators (fall mask and air line from hospital air System)	Yes 🗖	No 🗆	DK 🗆
7.2.10.3	Chemical cartridge air purifying respirators	Yes□	No 🗆	DK 🗖
7.2.10.4	HEPA masks (OSHA/NIOSH-approved High efficiency particulate)			
7.2.10.5	Chemical protective clothing	Yes 🗆	No 🗆	DK 🗆
7.2.11	Does the local medico-legal death investigation system have responsibility to investigate fatalities from biological, chemical and radiological terrorism? If yes, does that system have access to:	Yes 🗖	No 🗆	DK□
7.211.1	Appropriate microbiological and toxicological testing	Yes 🗆	No 🗖	DK 🗆
7.2.11.2	Biosafety cabinets and fame hoods to handle contaminated autopsy tissue	Yes 🗆	No 🗖	DK□
7.2.11.3	Facilities where autopsies can be performed on contaminated victims	Yes□	No 🗆	DK□
7.2.11.4	Established links to the local and state health department	Yes 🗆	$_{ m No}$ \square	DK 🗆
7.2.11.5	Medical records of victims	Yes 🗆	No □	DK□
7.2.12	Are medical examiners/coroners included in the LPHS hazardous materials emergency preparedness activities?	Yes 🗆	No 🗆	DK 🗆

Essential: Service #8: Assure a competent public and personal health care workforce							
8.1	Indicator: Workforce Capacity and Assessment						
8.1.1	Has the LPHS assessed the workforce for emergency preparedness and response capabilities in the past tw yes, provide the numbers below in 8.1.2 in column 1.		Yes 🗖	No 🗖	DK□		
8.1.2	Has the LPHS estimated the numbers of practicing pu and personal healthcare workers trained 8 hours or mo last year in emergency preparedness and response? If yes, please provide numbers for the following:		Yes 🗆	No 🗆	DK□		
		# In	# Trai	ined			
			(8 hrs or	more)			
8.1.2.1	Physicians				DK 🗆		
8.1.2.2	Nurses				DK□		
8.1.2.3	Physician assistants						
8.1.2.4	Environmental health workers				DK□		
8.1.2.5	Mental health/Social workers				DK 🗆		
8.1.2.6	Epidemiologists				DK□		
8.1.2.7	Laboratory personnel qualified to analyze biological, radiological, or chemical agents				DK 🗆		

8.1.2.8	Respiratory therapists			DK 🗆
8.1.2.9	Medical examiners			DK 🗆
8.1.2.10	Pharmacists			DK 🗆
8.1.2.11	Emergency medical technicians
